

Building the Bridge to Success Together

All Saints' News

Edition: 1

Date: 13.09.22

Welcome to the first newsletter of the school year. We have had a fantastic start to the new school year and have been amazed at how brilliantly the children have settled into their new classes and school routines. The children enjoyed their Wow days and have launched into their new topics with excitement and enthusiasm. On Friday, we held special worships at both schools to commemorate the life of the Queen. The children showed such respect and made extremely thoughtful responses which made us all so proud. During her 1998 Christmas broadcast the Queen stated, *'No age group has a monopoly of wisdom, and indeed I think the young can sometimes be wiser than us.'* The responses of the children over the past week have demonstrated their great understanding, their ability to confidently and comfortably share their own opinions and their ability to also consider the feelings of others through times of sadness. They have truly been a wonderful credit to you all.

School Behaviour Policy

During the first week of term, all children have been reminded of our whole school behaviour expectations. Our approach, rewards and promotes positive behaviour whilst supporting children in overcoming any difficulties which may arise. We support children's resilience and operate a team approach where our aim is to provide children with the skills and tools to successfully resolve conflict, understanding how the choices they have made have affected others. We promote positive language and look to find opportunities where children can succeed and have good choices in their behaviour recognised. We use the language of 'wow' and 'good' but equally we are consistent in our high expectations that children within our care, guidance and support can make mistakes but then rectify the result of their actions and actions.

We have three simple school rules;

- **We use positive language and only say kind and polite words.**
- **We keep control of our hands, feet and objects.**
- **We follow instructions.**

This will include; Helter skelter hot dogs, fairground fries and beans followed by rocky road.

This Half Term's Topics!

Nursery's theme is **"All about me."** The children will be talking about themselves, their families and their homes. We are looking forward to exploring this theme with the children.

FS2: Our theme this term is **'Marvellous Me'** where we shall be discovering what makes us, us! We will be looking at our families and how we have similarities and differences.

Year 1 have made a great start to our topic **'Home is where the heart is'**. We have started our topic by thinking about where in the world we live and making models of our homes using different resources.

As historians, we will be asking questions to find out information about Hesse and investigate the question 'What was life like before the Humber Bridge?'

As geographers, we are going to look at our local area and we identify the human and physical features of geography in the world around us.

Year 2 have made a super start to their new school year and have jumped into their new topic **'All around the World'** with enthusiasm. As geographers, we will be identifying and locating the 7 continents and 5 oceans, exploring different climates, cultures and other geographical features.

As historians, we will be finding out about Amy Johnson and how this local hero was significant to the history of aviation.

We can't wait to go on a journey around our world!

Year 3 Year 3 have had a fantastic start to the new school year and have thoroughly enjoyed being Historians when focusing on our topic **'Stone Age, Bone Age!'** On our WOW day, we began looking at and creating some cave paintings, we worked together to see who could create the woolliest mammoth and we also used our problem solving skills to create a miniature shelter! Moving forwards in the term, we will be delving in deeper to the Stone Age, working on chronology, thinking about a range of jobs that took place to ensure of survival and researching Skara Brae to create a non-chronological report!

Year 4 have had a wonderful start to the new year and are set to become experts on European countries through our topic **'European Escapade'**. On our WOW day, they tested their knowledge about European countries and their capitals by taking part in a fun quiz. They used Chrome books to research further and then wrote riddles to describe their favourite places.

They will continue to learn more about the human and physical features of European countries and will compare these amazing landscapes and famous landmarks too!

Year 5 have made a fantastic start to their **Crime and Punishment** topic. They have started to explore different crimes throughout history and some of the gruesome punishments of the past! On our WOW day we enjoyed doing some drama, with some members of our team becoming criminals, while the rest of us put our interrogation skills to the test! The children will continue to learn about the impact that different time periods have had on our current legal system, from the Romans to the Victorians.

Year 6 have begun an exciting final year with **Ice, Ice Baby!** On our WOW day we researched and ate food that an explorer would eat from the 1900s. We have been looking at Ernest Shackleton and his journey on the Endurance, and have begun a fantastic writing journey based around this text!
